

2023 Australian Timber Design Award Winners

- presented by their creators

14th March 2024

Welcome

In the spirit of reconciliation, Forest & Wood Products Australia acknowledges the Traditional Custodians of Country throughout Australia, and we acknowledge their connection to the land and their custodianship of Country and forests. We pay our respect to Elders past and present and extend that respect to all Aboriginal and Torres Strait Islander peoples.

2023 Australian Timber Design Award Winners - *presented by their creators*

Welcome

Alastair Woodard
WoodSolutions Program Manager Vic

WoodSolutions™: Who we are

An Australian industry initiative, resourced by Forest and Wood Products Australia (FWPA) –

For architects, engineers, designers and other building professionals

- inspiration
- information & resources
- CPD.

Discover WoodSolutions

The screenshot shows the WoodSolutions website interface. The URL is <http://www.woodsolutions.com.au>. The page features a navigation menu with links for Home, Inspiration, Why Wood, Species/Materials, Applications/Products, Resources/Events, and Suppliers. A main banner image displays the 'Advanced Engineering Building'. Below the banner, there are sections for 'Latest Inspiration', 'Latest News & Blogs', and 'Events Calendar'. A sidebar on the right offers 'Free WoodSolutions Technical Design Guides'. Callout boxes on the left and right provide additional information and links for various website sections.

WoodSolutions Seminar

2023 Australian Timber Design Award Winners – Presented by Their Creators

The 2023 Australian Timber Design Awards featured a diverse range of outstanding timber structures.

This special 'case study' focused WoodSolutions seminar will present a number of the amazingly beautiful award-winning local and interstate, multi-residential, commercial, educational and government hub projects, including the overall ATDA Excellence in Timber Design 2023 Winner – the stunning Sydney Opera House Concert Hall Renewal.

Each case study will be presented by the principal project architect, designer, engineer, builder, or supplier who will discuss not only the finer details of these exemplar projects but also the timber design processes and philosophies of these leading design and building professional practices.

This seminar offers you the opportunity to learn from experts in timber design, network with your colleagues, and collect valuable CPD points.

Date
Thursday 14th March 2024

Venue
Library at the Dock
Docklands

Time
12.15 pm registration
for 12.30 - 5.00pm

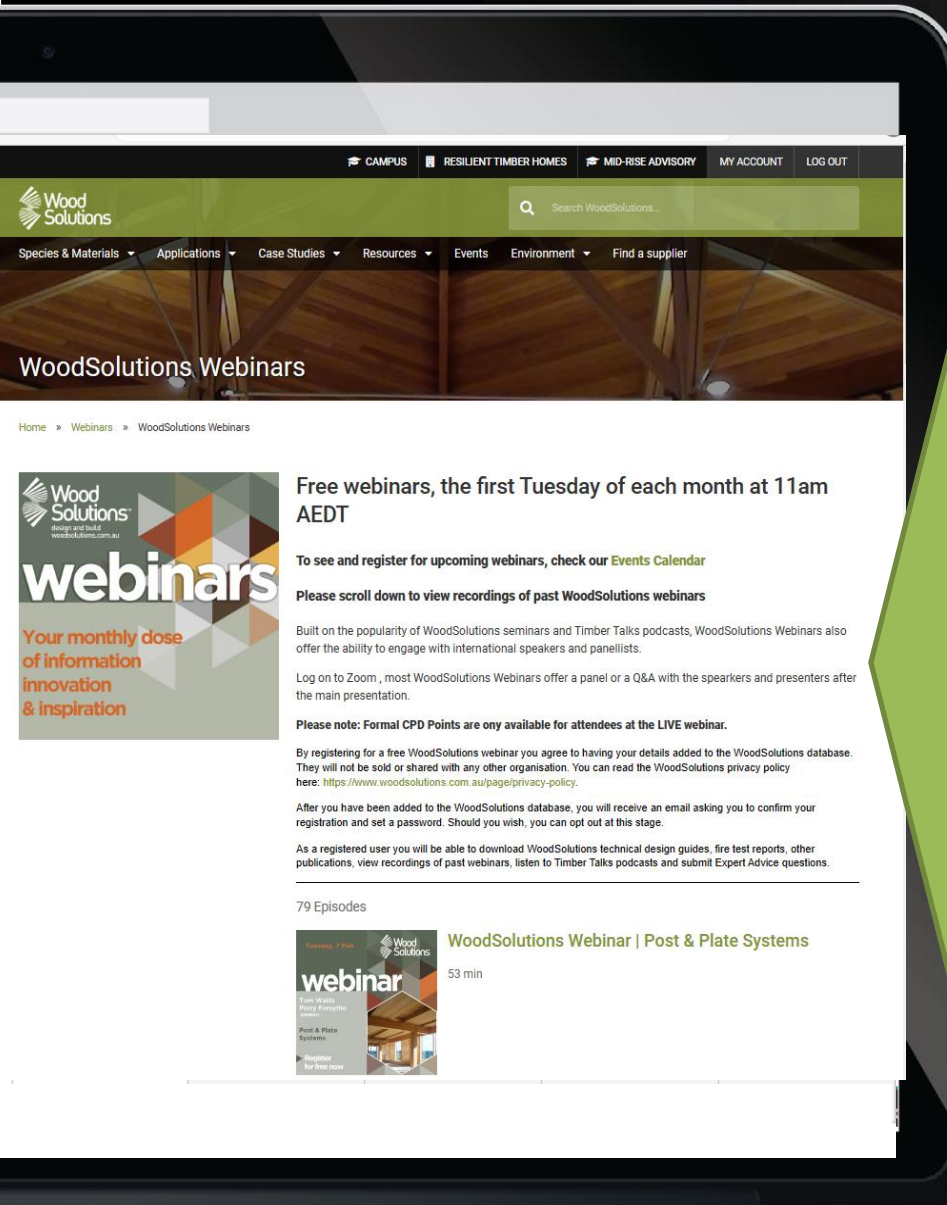

CPD
4.0 Informal CPD points

Publication category

- Any - [Apply]

01  **Timber-framed Construction for Townhouse Buildings Class 1a**

This guide considers MRTFC (Multi-Residential Timber Framed Construction), a certified fire and sound rated timber construction system conforming with the requirements of the Building Code of Australia (BCA) for multi-residential buildings

02  **Timber-framed Construction for Multi-residential Buildings Class 2 & 3**

MRTFC is a certified fire and sound rated timber construction system conforming with the requirements of the Building Code of Australia (BCA) for multi-residential buildings

03  **Timber Fire Design Compliance for Low-rise Office (Class 5) and School (Class 9) Buildings**

This offers designers, specifiers, builders, code officials and certifying authorities a guide that demonstrates how timber framed construction can achieve targeted fire and sound performance requirements

04  **Building with Timber in Bushfire-prone Areas**

An explanation of the Australian Standard for construction of buildings in bushfire-prone areas, including the requirements for each Bushfire Attack Level (BAL)

05  **Timber Service Life Design Guide**

Information to give building and construction industry professionals confidence in determining the service life timber in a wide range of applications, from sole plates to suspension bridges

06  **Timber-framed Construction - sacrificial timber construction joint**

Standard details for common locations where timber sacrificial blocks can be used to form these construction joints in walls and floors for specified Fire Resistance Levels

FEEDBACK FORM

We would appreciate it if you could take a few moments to complete this form to let us know how we did, and what could be done better in the future.

1. Overall, how did you feel about today's WoodSolutions (WS) seminar?

.....

2. Of the presentations provided which did you find of most interest and value?

- | | |
|--|--|
| <input type="checkbox"/> Eternity Life Apartments | <input type="checkbox"/> Sydney Opera House Renewal |
| <input type="checkbox"/> Elsternwick House | <input type="checkbox"/> Bendigo GovHub |
| <input type="checkbox"/> Boola Katitjin, Murdoch Uni | <input type="checkbox"/> Barkers College Maths & Student Hub |

3. How do you think that the WS seminars might be improved to better serve your needs?

-
- Would you prefer?
- More detail
- Less detail, or
- Detail level was [OK](#)

4. In future WS seminars, what other major topics would you like to see covered?

.....

.....

.....

I would like to be emailed PDF copies of the following Seminar presentations -

- | | |
|--|--|
| <input type="checkbox"/> Eternity Life Apartments | <input type="checkbox"/> Sydney Opera House Renewal |
| <input type="checkbox"/> Elsternwick House | <input type="checkbox"/> Bendigo GovHub |
| <input type="checkbox"/> Boola Katitjin, Murdoch Uni | <input type="checkbox"/> Barkers College Maths & Student Hub |

I would like a CPD Certificate for Attendance at today's Seminar (Informal CPD points)
